Columbus, OH 43228 | 607.262.7862 | shao.706@osu.edu | linkedin.com/in/rocky-shao/

Personal Details

Aspiring software developer and Computer Engineering student at The Ohio State University with three years of experience in competitive programming and robotics. Recent Summer Intern at Boyce Thompson Institute with exposure to computational biology and software development. Proven ability to lead projects, drive team progress, and manage cross-functional groups under pressure. Skilled in software development, problem-solving, and communication.

Education

The Ohio State University - College of Engineering

Bachelor of Science in Electrical and Computer Engineering (In Progress) | Expected Dec 2028

Relevant Coursework: Software Design, Mathematics, Digital Logic, System Design

Clubs: Buckeye Autodrive, OSU Underwater Robotics Team

Work Experience

Boyce Thompson Institute - Ithaca, NY | Highschool Research Intern | Jun 2024 – Aug 2024

- Earned full-time paid internship, selected as 1 of 4 interns from 80+ applicants.
- Conducted bioinformatics research on 39 cucumber pangenomes using R, Python, Linux, OrthoFinder, and Blast2GO, identifying 3,451 core and variable genes linked to domestication, growth, and stress response.
- Mentored by Cornell professors to analyze genomic data, gained experience in computational biology, problem-solving, and scientific communication.

Activities & Involvement

Ithaca Highschool Development Team - Ithaca, NY | President | Sep 2022 – Jun 2025

- Led a team of 19 student programmers in developing a full-team game-development project and preparing for Cornell and UPenn competitions.
- Oversaw enhancement of a Street-Fighter-style game-development project, leveraging Python Pygame and Git version control.
- Developed expertise in competitive programming, project management, event logistics, team leadership, and technical mentorship.

Ithaca Highschool Code Red Robotics | Design Lead & Software Developer | Sep 2022 – Jun 2025

- Developed custom computer vision solutions using OpenCV, Intel Realsense D435 depth camera, JeVois smart camera and custom Python scripts.
- Designed multiple mechanical systems using Autodesk Inventor.
- Collaborated effectively in a fast-paced, team-oriented environment.

Key Skills

Software Design | Python & R for Computational Biology | Python & OpenCV for Computer Vision | Self-Learning | AutoDesk Inventor | Leadership & Team Development | Cross-Cultural Communication
